

Community Meeting Environmental Condition of Reserve Lands

Thursday, December 15, 2022

Administration Office: 12-2 pm

Food and refreshments will be provided

Peerless Trout is working to eliminate the colonial Indian Act sections on Lands Management and replace it with a Land Law that reflects our Nation's values and customs.

Associated Environmental completed an Environmental Site Assessment (ESA) to determine the environmental condition of the reserve lands of the First Nation (Reserve No. 238). We invite community members to join us for a presentation of our findings.
